Evidence of Success: Academic success of a student is important because it is strongly related with the positive outcomes we value. Academic achievement is nothing but the extent to which a student has achieved during a period of his education. The students in the Roll of Honors have done exceedingly well in education. The Meritorious Student Scheme is a special scheme that inspires students for effective performance in higher education. The college has duly recognized their efforts by honoring them by presenting Cash Prizes, Mementos, and Certificates. Under the scheme, in academic session 2020-21, 08 meritorious students have been benefited and motivated. Such programs create positive environment in the campus and lead the other students to improve their performance. It creates a sense of contentment among the students.

Problems Encountered and Resources Required: In view of the current rate of inflation and the devaluation of the money, the prize money has to be increased. Needed more philanthropists to give merit-based scholarships.

BEST PRACTICE - II

Title of the Practice: Practice: Appointing Freshers [Postgraduates] for Teaching.

Goals: To prepare human resource for teaching in college.

Context: The practice is undertaken by the Management, Principal, IQAC cell etc

The Practice: College is consistently trying to encourage post graduate students to develop their teaching skills. College conducts walking interview every year for teaching posts. Many experience and aspiring faculties apply for that post. Along with applied candidates' college inform fresh post graduate students from the college as well as other colleges. Demo lecturers are also arranged to assess their teaching potential. After demo lectures required scope of improvement is discussed with them and appointment is given to them.

Evidence of Success:

Sr. No.	Name of the Faculty	Month & Year of Passing [Post-Graduation]	Date of Appointment
1	Kale Sampada S.	March - 2020	15-09-2020
2	Pate Deepak P.	March - 2020	15-09-2020

Problems Encountered and Resources Required: The institution needs to evaluate their teaching ability well in advance during the course for the entire semester. Either institution has to arrange Faculty Development Program for them or make them attend the same organized by other institution. Generally, it has been observed that meritorious post graduate student prefers to pursue other courses or profession rather than join as teaching faculty on CHB or contract basis.
