**Report on "Avishkar Research Festival" Academic Year 2018 - 2019
College, District & University Level**

Research, the gateway to new realms of knowledge, plays a pivotal role in stimulating critical thinking and empowering societies and scholars to unravel solutions to multifaceted problems. In this pursuit, the education system plays a paramount role in instilling the values of research. Recognizing this, the *National Education Policy* has accorded high importance to research within higher education institutions, viewing academic research as an integral component of knowledge societies.

In higher education, fostering a culture of research is essential, and it starts with igniting the passion for exploration and discovery within students. Engaging in comprehensive research not only equips students with critical thinking skills but also hones their analytical, research, and communication capabilities, which are in high demand globally and immensely beneficial in today's knowledge-driven world.

To cultivate research aptitude, kindle interest, nurture innovative ideas, encourage keen observation, provoke thought processes, and contribute to the creation of new knowledge, our institution annually hosts the college-level "**Avishkar Research Festival.**" This event serves as a platform for students to showcase their research endeavours and innovations. The festival encompasses four distinct categories: Undergraduate Students, Postgraduate Students, Research Students, and Teachers. Participants eagerly register their topics for presentation, with separate segments for oral and visual presentations.

From this pool of talented participants, a select group is chosen to represent the college at the University Level Avishkar Research Festival, further amplifying the reach and influence of their research. Furthermore, a few exceptional individuals have the privilege of representing the university in intra-university competitions, taking their research journey to a broader stage.

On the 10th of December 2018, our campus buzzed with intellectual excitement as the College Level Avishkar Research competition commenced. *Dr. Sujata Chavan*, our esteemed principal, inaugurated the event, setting the tone for a day filled with intellectual exploration. A total of nine participants enthusiastically presented their research topics, showcasing their dedication to the pursuit of knowledge.

This commitment to research extended beyond our college campus when the *District Level Avishkar* competition took place on the *19th of December 2018*, hosted by *COCSIT College, Latur*. Five teams from our institution wholeheartedly participated, further underlining our dedication to promoting research culture and nurturing the inquisitive minds of our students.

District Level Avishkar Competition

Sr. No.	Name of the Student	Category	Discipline	Position
1	Kore Shraddha Madhukar	UG	Commerce, Management and Law	2nd

Within the keenly contested competition at the undergraduate level, two of our exceptional students, Miss Kore Shraddha Madhukar and Gudade Anuradha Pandurang, demonstrated their intellectual prowess by clinching the Second Prize at the District level in the Commerce, Management, and Law category, in the undergraduate division. Their dedication, passion, and meticulous research undoubtedly played a significant role in securing this well-deserved recognition.

Our beloved principal, Dr. Sujata Chavan, not only steers the institution with vision and leadership but also served as the dynamic college coordinator for the Avishkar Research Competition. Her commitment to fostering a culture of research and her instrumental role in organizing and facilitating the competition highlights her dedication to nurturing the research spirit within our institution.

The achievements of our students and the dedication of our college coordinator collectively underline our institution's commitment to excellence, research, and the holistic development of our students. It's a testament to our shared pursuit of knowledge and our collective ambition to make a positive impact on the world through research and education.

College Co-ordinator
Dr. S N Chavan
