Report on "One Month Soft Skills Programme"
organized by Department of Commerce & Sparrk Academy, Latur

[Academic Year 2019 - 2020]

14 / 02 / 2020 to 19 / 03 / 2020

In early January 2020, productive discussions unfolded between the esteemed consultants from SPARRK ACADEMY in Latur and the college's management. Their primary goal was to collaboratively define the scope, approach, and timelines for an upcoming Soft Skills Training Program. The culmination of their efforts was the signing of a memorandum of understanding (MOU) on the 30th of January, solidifying their partnership.

Following this significant step, the college promptly disseminated a notice to raise awareness about the upcoming training program. As a pivotal part of the program's launch, a comprehensive meeting was orchestrated with the enthusiastic students who expressed their interest in participating. This meeting was graced by the presence of the Consultant, the IQAC coordinator, and the College Principal, ensuring that the program's essence was communicated effectively.

During this gathering, the nature of the training program was eloquently elucidated, and the manifold benefits it held for the students were made abundantly clear. As a result, the college successfully enlisted students who were eager to partake in this enlightening endeavor and promptly collected the requisite fees to facilitate their participation.

A total of 12 students embarked on this educational journey, committing to the one-month course designed to bolster their soft skills and overall personal development. The College, in consideration of the number of enrollments, arrived at an agreeable fee structure for the consulting services.

With the students on board, the consultant sprang into action, meticulously crafting a customized training program tailored to the unique needs of this select group. The training sessions, as outlined in the schedule, commenced, with students eagerly attending these informative and transformative sessions held within the college premises on designated days.

In addition to the in-class training, students were given the opportunity to apply their newfound knowledge and skills through various practical activities, further enhancing their learning experience and preparing them for real-world challenges. This holistic approach ensured that the Soft Skills Training

Program not only equipped students with knowledge but also allowed them to put it into practice, fostering their personal and professional growth.
