**Report on Industrial Visit at Guru Ganesh Graphics Ltd**

In an effort to bridge the gap between classroom learning and real-world application, students from G.K.Joshi (Night) Commerce College, Latur recently embarked on an enlightening industrial visit to a renowned Printing Press located in the Industrial Area of Latur City. The primary objective of this industrial visit to printing press 2025 was to provide the students with a first-hand experience of the intricate processes involved in the world of printing, including printing, cutting, binding, and lamination.

This industrial visit was most useful to the students in the way of understood the concept of different types of sensors, electrical drivers and control used in the printing machineries and also understand concepts behind the 3D printing. Mr. Sheetal Baldota, the owner, has vast experience in the industry and was an excellent source of information and answered all questions patiently. The students were introduced to the printing process and the mechanism in which the machinery works. Photopolymer sheets that are used in printing were showcased and students had the opportunity to inspect the same. The organization implements an offset printing/indirect printing process to gain superior quality print. This opportunity not only deepened their understanding of the field but also allowed them to witness the seamless integration of design and production.

A total of 20 students of B.Com IIIrd year along with 2 faculty members (Dr.Sujata Chavan and Asst.Prof. Priti Pachange visited Guru Ganesh Graphics Ltd on 15/03/2025 at 11:30 am. The visit was structured to cover the entire printing process, encompassing pre-press, press, and post-press stages.

**1. Pre-Press**

The students were introduced to the pre-press stage, which involves the preparation and finalization of materials before they are sent to the printing press. This stage includes tasks such as image processing, colour separation, and proofing. The students witnessed how digital files, designed in the classroom, are meticulously prepared for the actual printing process. They gained a new appreciation for the attention to detail required to ensure the accurate reproduction of designs.

**2. Press**

The heart of the printing press is undoubtedly the press itself. During this phase of the visit, students observed the complex machinery in action. They saw how the designs they had created were transferred onto various materials like paper and cardboard using offset printing technology. This process involves precise registration of colours, the application of ink, and the mechanical precision necessary to ensure that every print is consistent and of high quality.

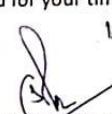

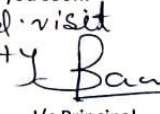

### 3. Post-Press

In the post-press phase, students delved into the final steps that transform printed sheets into finished products. This phase includes cutting, binding, and lamination, among other processes. The students were able to witness the intricacies of cutting machines, binding equipment, and lamination processes. They saw how these techniques added the final touch to the printed materials, making them ready for distribution and use.

The industrial visit not only offered a comprehensive view of the printing process but also highlighted the importance of teamwork, coordination, and quality control in a printing press. All the students got to understand about the relations between the digital designing and printing process.

Throughout the visit, the students engaged with experienced professionals who shared their insights and knowledge, answering questions and providing guidance.

## Permission letter for Students Visit

Mr. Sheetal Baldota Guru Ganesh Graphics MIDC, Latur.			
Subject: Request for Permission to Visit [Guru Ganesh Graphics]			
Sir,			
We are writing to request permission for a group of students and faculty members from [G.K.Joshi (Night) Commerce College, Latur] to visit your esteemed Unit, [Guru Ganesh Graphics], on 15/03/2025 from 11:30 to 1:30. We are particularly interested in observing the production process, quality control procedures, and technologies used.			
This visit is part of our curriculum in B.Com-Illrd Year under Project and Field Work and aims to provide our students with valuable practical experience and a deeper understanding of Production, Marketing and various aspects of Human Resource Management. We believe that a first-hand look at your operations will greatly enhance their learning and understanding.			
Our group will consist of approximately 20 students and 02 faculty members. We assure you that we will adhere to all safety regulations and guidelines during our visit and will make every effort to minimize any disruption to your operations. We would be grateful if you could provide us with a tour of the facility and any relevant information about your processes. We would appreciate it if you could let us know if this visit is possible and if there are any specific requirements or procedures we need to follow.			
Thank you for your time and consideration. We look forward to hearing from you soon.			
Sincerely,

## Pics of Factory Visit

### Closing remarks

In conclusion, the industrial visit to the Printing Press in Latur Industrial Area, Latur, was a resounding success. It not only broadened the horizons of UG students but also emphasized the importance of a well-rounded education that includes practical exposure. Through this industrial visit, the students had the opportunity of gaining first-hand knowledge of the mechanical aspect of how newspaper organizations run

The students left with a newfound enthusiasm, armed with a comprehensive understanding and useful insight into the practicality and reality of the working field.

Co-ordinators:

1. Dr. Sujata Chavan

2. Asst Prof. Priti Pchange
